Mindful Drawing

with Sheri Hoeger

Have you ever told yourself you "can't draw"? Don't believe everything you think! Explore drawing techniques designed to help you increase your powers of observation and activate areas of the brain that naturally deal with spatial relationships and deeper visual awareness. Artist Sheri Hoeger will lead you through a series of exercises based on Betty Edwards' book, "Drawing on the Right Side of the Brain." Though recent studies show it's more complex than simply left and right, these processes are extremely effective in helping artists "get into the zone" and draw from our authentic, creative selves. When this occurs, there is a sense of well-being similar to the benefit of deep meditation. And did I mention that it's really fun?
